

Fiber Internet is WORTH THE WAIT!

Discover the 7 Stages of Building a Fiber-to-the-home Network

Construction of the *Wave Rural Connect* fiber network is a complex process that involves contractors and a mix of overhead and underground construction to lay distribution lines. The time it takes is dependent on a number of variables including the length of the circuit, terrain and soils, weather, and other external factors.

There are seven stages we repeat for each zone that we open.
